Overall a very impressive set of results against a school with a good football pedigree. The spirit and commitment of all students should be commended but especially the Martineau's students who played in the first ever Martineau's Saturday football fixture. Although both games were lost they played extremely well and contributed to some entertaining football.

Aldenham first XI started the first half with a good tempo and were inspired by the movement of Dan Quick and Debutant James Charnley. Goal chances were made and scorned until Ben Weinberg scored direct from a corner kick. Chigwell were limited to counter attacking football as Aldenham dominated territory and possession. However, after 30 minutes the home side struck back through a penalty kick and Aldenham turned round at half time on level terms. Despite several half time changes Aldenham began the second half well grabbing the initiative and a fine double from Sebastian Eisenstein put the School in a comfortable position. However, as has been the case all season, one momentarily slip cost a second Chigwell goal to create a nail biting final 10 minutes. Despite the best attempts of the home team the score remained unchanged as Aldenham recorded their first southern schools league victory this season.
