

ART AND DESIGN.

Art and design is taught for one period a week throughout the Prep and Pre Prep school.

Art and Design at Aldenham aims to broaden the children's knowledge and understanding of Art and Artists and develop their creativity, appreciation and enjoyment of the subject.

Art and Design provides the children with visual, tactile and sensory experiences. It offers children opportunities to learn about different styles of art and appreciate a variety of methods and motives of people and cultures from the past and contemporary life.
