

## **Geography**

At Aldenham Geography is taught to develop the children's understanding of places, mapwork and environments both local and worldwide.

Geographical studies provokes and answers questions about the natural and human worlds developing a range of skills and problem solving capabilities in children of all ages. Geography can inspire children to reflect on their own place in the world and responsibilities towards the environment.

In Year 6 pupils study - rivers/environmental issues.

In Year 5 pupils study - Mountains/ Water/Coastlines

In Year 4 pupils study - local and worldwide environments

In Year 3 pupils study - weather/local and worldwide environments

In Year 2 pupils study - Coastlines/mapwork/weather

In Year 1 pupils study - mapwork/ weather/environments

In Year R pupils study - local area/Weather

ICT is used widely to support the teaching of Geography across all age groups, both on research using the Internet and ICT skills to produce individual work.

Teaching is supplemented by educational visits relating to the topics being studied.

## History

At Aldenham pupils are taught to develop their historical skills through a source based approach to learning. History will develop the children's knowledge and understanding of place and time. Historical studies develop a sense of chronology, the skills of interpretation and the skill of historical enquiry. History can inspire children to reflect on their own past and place in the world.

Teaching is supplemented by educational visits relating to the topics being studied.

In Year 6 pupils study -Britain Since 1930s/World War 2/The Holocaust

In Year 5 pupils study - Tudors/Victorian Britain
